### EXPERIENCE

#### Technical Product Management | Zurich Insurance and Real Garant

*Zurich, Switzerland and Neuhausen, Germany | Nov 2019 - Present*

- Built FinTech solutions for claims, invoices, credit notes, and warranty systems
- Migrated monolithic systems to microservices on AWS
- Reduced invoice processing time from 30 days to 1 day
- Developed micro-frontends with React.js, Node.js, Spring Boot, and Go
- Implemented custom MFA solution using Java and Spring Security
- Integrated European Car Catalog APIs for warranty validation
- Managed CI/CD pipelines with Kubernetes, Docker, and Kafka

## **FinTech Manager and Solution Architect | Optima Apps**

*Belgrade, Serbia and Vienna, Austria | Nov 2019 - Present*

- Lead engineering teams modernizing FinTech systems to cloud-native SaaS
- Design cloud architecture and migrate services to AWS
- Optimize CI/CD pipelines using Java, Node.js, React.js, and Go
- Provide IT consulting and strategic technology planning

## **Senior Software Engineer and Drone Developer | SiStudio**

*Belgrade, Serbia | Dec 2018 - Jun 2020*

- Built automation systems using Python, DJI SDK, and Tello SDK
- Managed drone assembly, programming, and calibration

## **Startup Founder and Engineer | PowerBattery**

*Shenzhen, China | Sep 2016 - Sep 2019*

- Founded eco-friendly powerbank company using recycled batteries
- Designed battery management systems to reduce e-waste
- Managed product development from prototype to manufacturing

## **IT and English Instructor | Shanghai Education Center**

*Shanghai, China | Mar 2016 - Sep 2018*

- Taught Java, Python, and JavaScript programming

## **EDUCATION**

---

### **Metropolitan University Belgrade**

*Information Technology | Coursework completed (2 years)*

### **University of Nis, Faculty of Electronic Engineering**

*Software Engineering | Coursework completed (2 years)*

## **PORTFOLIO**

---

### **Enterprise:**

**Zurich Insurance** - zurich.com - Global insurance platform

**Real Garant** - realgarant.com - Automotive warranty platform

### **Open Source:**

**Factura-Lazare** - stefanlaza.github.io/Factura-Lazare - Invoice management app

**LazareBTCTrack** - stefanlaza.github.io/LazareBTCTrack - Bitcoin wallet tracker

**TracktLazare** - stefanlaza.github.io/TracktLazare - Expense tracking app

**PythonTelloDroneAI** - Drone automation with Python and Tello SDK

**NodeExcelMongoDBBatch** - Excel to MongoDB batch processor

**Arctic Code Vault Contributor** - FreeCodeCamp contribution

## SERVICES

---

IT Consulting, SaaS Development, Cloud Architecture, Custom Software, Business Analytics
